

## **CURRICULUM VITAE**

### **CV Dr. Andreas Sichert, CEO and Co-Founder**

Dr. Andreas Sichert is the initiator, co-founder and CEO of Orcan Energy AG. The 36-year-old previously worked for IBM Deutschland in application development and consulting, and as a scientific editor. Born in Laufen, Germany, he studied physics at the Technical University of Munich, where he also completed his doctorate. He is the author of several scientific articles and holds patents in the field of ORC technology. Dr. Sichert is an alumnus of the Bavarian EliteAcademy and the Sloan Swartz Foundation and is a supporter of the TUM's foundation commitments. Since 2014, he has been a member of the SME Advisory Committee to the Federal Ministry of Economics and Energy. Dr Sichert lives with his wife and sons in Laufen and Munich.

### **CV Wolfgang Brand, CFO**

Wolfgang Brand has been CFO of Orcan Energy AG since June 2015. The capital markets and corporate finance expert previously served as CEO and CFO of Advance Inflight AG, the world's leading provider of inflight entertainment. After completing a banking traineeship and a business administration degree, the 48-year-old began his professional career in the strategic controlling department of adidas AG. This was followed by further posts in various management roles as well as more than ten years on the boards of different listed companies including telegate AG and SHS VIVEON AG. Wolfgang Brand lives in Munich.
